Course Outline

7:30am Registration

Program begins at 8:00 am and concludes at 5:00 pm.

Lunch is on your own.

Program includes:

Orthoses for Mobilization: Principles of Fabrication / Power Point Presentation

Orthotic Demonstration and fabrication of the following:

- Dorsal Wrist Orthosis with Orfitube Outrigger
- Anti Ulnar drift
- Composite Finger Flexion Orthosis - Static Progressive
- Static progressive elbow extension/flexion
- Static Progressive pronation/supination

Learning Objectives- Splinting Course

Upon completion of this course, participants will be able to:

1. Recognize indications, precautions and contraindications for orthoses for mobilization of the upper extremity.
2. Analyze mechanical properties required to fabricate low temperature thermoplastic mobilization orthoses for the upper extremity.
3. Compare and contrast outrigger/ and or coil designs of mobilization orthoses.
4. Identify important anatomical structures and landmarks of the upper extremity.
5. Analyze key characteristics of different types of mobilization orthoses
6. Learn to critique and assess different splinting materials.

A certificate of attendance will be issued to all participants completing the CEU requirements. One day equals 8.0 contact hours (.8 CEU's). This splinting workshop meets criteria "A" for hand therapy certification and is accepted by NBCOT and most state OT boards. 3Kings UE Specialists is a state provider for FL OTs through CE Broker

Content Focus: Domain of OT: Performance Skills, Client Factors, Context

Instructor

Debby Schwartz, OTD, OTR/L, CHT

Product and Educational Specialist

Physical Rehabilitation

Debby Schwartz is a certified hand therapist with over 28 years of experience as a practicing clinician. She joined Orfit Industries America to promote product awareness and splinting education. Debby is an active member of ASHT and has participated in IFSHT meetings as well. She has presented on a variety of hand therapy topics both at national and international conferences, and has written a number of articles for hand therapy publications, including a recent literature review of static progressive orthoses. She is presently writing two book chapters for hand therapy references. Debby recently completed her Doctorate of Occupational Therapy.

Workshop format: A power point presentation, splinting demonstration, and hands-on fabrication of orthoses will guarantee achievement of learning objectives.

This splinting workshop is appropriate for OT's, COTA's, PT's, PTA's and CHT's working with an upper extremity patient caseload and possessing intermediate splinting skills.
